Suppliers of Commercial Catering and Refrigeration Equipment

Kitchen and Laundry Areas - Dalton Court, Cockermouth

JP Commercial Kitchens are proud to be associated with this new project. We are suppliers of Commercial Catering and Refrigeration Equipment and Laundry Equipment. We have been involved with many new projects from the design and planning stage through to the supply and installation.

Dalton Court was a traditional construction of a 60 bed care home which has a project value of around £3.5 million.

The design, which was created by JP Commercial Kitchens is split into several areas, allowing more space and giving more defined areas such as prep area, cookline, dishwash area and a store room. Equipment included a gas cooker, gas convection range, fryer and grill. The cookline was served by a bespoke extract and supply canopy.

JP Commercial Kitchens was also responsible for the design and fit out of the Commercial Laundry Equipment. The equipment consists of two 14kg high spin washers compliant with WRAS regulations, thermal disinfection and sluice compliant. There are also two 29kg gas dryers, 1.4 metre rotary ironer and a finishing table with boiler.
