Suppliers of Commercial Catering and Refrigeration Equipment

Greygarth Hall, Victoria Park, Manchester

Greygarth Hall is an undertaking of the Greygarth Association, a registered charity. It is an independent hall of residence providing accommodation for students in Manchester.

JP Commercial Kitchens were responsible for the design and installation of the main kitchen, separate dishwasher room and a dining area which are in the new extension to the existing hall.

The original client requirement was to have a fully operational commercial kitchen and a 'home from home' servery area for the residents. The servery area is due to be completed shortly as this area is currently within the existing building, which will be broken through shortly by the Main Contractor.

The design consisted of bespoke fabrication in all three areas, with some unusual configurations within the dishwasher area. The equipment installed consisted of

a wide range of cooking and preparation equipment, including refrigeration.

The cook line was served by a bespoke extract and supply canopy and air handling unit.
